### REMEDIES

Have nehieved the most noted success of any Medicines of Modern Times.

Mesura, Weeks & Potter have never doubted the specific properties of Cuticura, Cuticura Resolvent and Cuticura Soap, for the speedy, permanent and scancendical cure of Humors of the Blood, Skin and Scalp. They are, however, astonished at their universal success; for it was to be expected that in the hands of some they would fall solely from spasmodic or ignorant use of them.

They are enabled to justy without fear of contradiction that no remedies ever achieved in the short space of one year the number of wonderful cures performed by the Cuticura Remedies.

Much Harmony. The present status of affairs in the new Democratic political organization, the Cennocratic Club, has resulted in a complication which creates considerable commen about town. This state of affairs recalls the oft-quoted adage that "The best laid plans of mice and men aft gang aglee;" or, to descend

to a proscribed quotation, "Things are seldom what they seem, Skim milk masquerades with cream." The strife within Democratic party limits for the spoils caused the erection of the new organization. It was started, as is an open secret, for a purpose by some of the party Titans. The result is that, instead of a boom in the interest of the gentlemen who were its founders, it has proved a sort of a boomer-ang, and the opposition, by which is meant ang, and the opposition, by which is meant were noticed this afternoon carrying a man were noticed this afternoon carrying a man

The reason that officers were not elected according to programme was not found in the fact of a want of harmony, but rather in the circumstances that there was too much harmony. THIS justly celebrated Dietetic Preparation is, in composition, principally the CLUTEN derived from the WHITE WINTER FLINT WHEAT CEREAL, a solid extract, the invention of an eminent Chemist. It has not only been highly recommended but ertified to by a large number of Chemists and Physicians—representing a very high degree if medical science—as the Safest, Most Acceptable and Reliable Food for the Crowth and protection of INFANTS and CHILDREN, and for MOTHERS is king Sufficient Nourishment for their offsering.

Protection of INFANTS and CHILDREN, and for MOTHERS 12-king Sumicient Routishment for their offspring.

Unlike those preparations made from animal or Inous matter, which are liable to stimulate the brain and irritate the digestive organs, it embraces in its elementary composition—That which makes strong Bone and Muscle. That which makes good Flesh and Blood. That which is easy of Digestion—never constipating. That which is kind and friendly to the Brain, and that which acts as a preventive of those Intestinal Disorders incidental to Childhood.

And, while it would be difficult to conceive of anything in Food or Dessert more Creamy and Delicious, or more Nourishing and Strengthening as an aliment in Fevers, Pulmonary Complaints, Dyspepsia and Canceral Debility, its Rare Medicinal Excellence in all Intestinal Diseases, especially in Dysentery, Chronic Diarrhea and Cholera Infantum has been incontestably proven.
